### Introduction

### Background

In June 1999, the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (MH/DD/SAS) developed the SFY 1999-2000 Performance Agreement to replace the memorandum of agreement that historically was signed by each Area Authority or County Program and the Division. The creation of this new agreement marked a significant change in the relationship between the Division and the Area Authority and County Programs. The relationship evolved into a more businesslike association characterized by the clear statement of respective responsibilities and performance requirements geared toward major program outcomes.

This shift demonstrated the Division's focus on greater accountability for the resources invested in the community-based mental health, developmental disabilities and substance abuse service system by the State and Federal governments.

As an important element in achieving such accountability, the Division employs a variety of methods to monitor and/or verify fulfillment of Area Authority and County Program responsibilities and performance requirements elaborated in the agreements.

### State Fiscal Year 2004-2005

A Performance Contract was developed for SFY 2004-2005 reflecting the new management functions of Area Authorities and County Programs as they transformed into Local Management Entities (LMEs). For all LMEs, it was agreed that the SFY 2003-2004 Performance Agreement would be used for the **first** and **second** quarters of SFY 2004-2005. Those LMEs that are in an earlier stage of the mental health system reform process and have not signed the SFY 2004-2005 Performance Contract will continue operating under the requirements of the SFY 2003-2004 Performance Agreement. Those LMEs that have signed the SFY 2004-2005 Performance Contract as of January 2005 will follow the new requirements in the **third** and **fourth** quarters of SFY 2004-2005. Correspondence to the Area Directors, dated October 26, 2004, details this process.

Twenty one of the 33 LMEs have executed the SFY 2004-2005 Performance Contract with the NC DHHS as of January 2005. A table listing the LMEs in each group is provided in this report following the introduction.

As in prior agreements, the current agreements/contracts provide that the Division will publish the results of its monitoring in periodic, quarterly reports that present LME-specific performance data, comparisons to statewide data, and cross-LME comparisons.

This is the **Fourth Quarter Report** under the SFY 2004-2005 Performance Contract. This report includes data on the performance requirements specified in Attachment III, System Performance, of the current contracts. Some requirements are tracked on a quarterly basis. Others are tracked on a semi-annual or annual basis. For reasons of economy, only those requirements with a report due in the current quarter are included in this report. Due to challenges associated with system transformation and the rescheduling of the annual audit from Spring to Fall 2005, the reporting of the following measures have been deferred until SFY06: Access Line, Choice of Providers, Discharge and After-care Planning, Compliance with Diversion Law, Community Capacity Plan (MH), Provider Monitoring (part 2), Notice of Appeal Rights, Incident Management, Accounting and Claims Adjudication, Paybacks, Early Intervention COI, MH/SA COI, NC-TOPPS, and Olmstead Outcomes Monitoring.

The tables on the following pages list the report schedule, the performance requirements and standards, and LME performance under the SFY 2004-2005 Performance Contract. LME performance for LMEs operating under the SFY 2003-2004 Performance Agreement will be provided in a separate report.

#### **Questions or Concerns**

If officials of an LME have questions about any of the individual requirements reports or believe that information contained in this report is in error, they should contact their LME liaison. The LME liaison will assist in getting answers to questions and/or having errors corrected.

### LMEs Reporting Under The SFY 2004-2005 Performance Contract vs. The SFY 2003-2004 Performance Agreement

The first column of this table lists the LMEs that have signed the SFY 2004-2005 Performance Contract as of January 1, 2005 and will begin reporting information for the new requirements beginning with the third and fourth quarters. The second column lists the LMEs that will continue to use the measures in the SFY 2003-2004 Performance Agreement until the new Performance Contract is signed.

### General Administration and Governance. 1.1.1. Local Business Plan Implementation

<u>Performance Requirement</u>: LME submits a quarterly update report by the 30th day of the month following the end of each quarter. Reports shall be submitted on time, show evidence of Local Business Plan implementation and modification, and contain a signed statement by the Consumer and Family Advisory Council (CFAC) indicating it was given an opportunity to review and comment on the report and any modifications.

Best Practice Standard: 100% of reports are received by the due date, show evidence of implementation, and contain a signed CFAC statement. SFY 2005 Standard: Same as Best Practice Standard.

### Access, Triage and Referral. 1.2.1. Access to Emergent Care (Current Quarter Detailed Report)

<u>Performance Requirement</u>: LME maintains a log for each request for service and submits a quarterly report by the 20th day of the month following the end of the quarter. Reports shall be submitted on time and show the number of persons requesting services, the number and percent that are determined to need emergent care, and the number and percent for which access was available within 2 hours of the request. Access is defined as having a qualified provider on the physical premises ready to provide immediate care as soon as the consumer is available to receive care.

Best Practice Standard: SFY 2005 Standard:

100% of cases that are determined to need emergent care are provided access within 2 hours from the date/time of request. 85% of cases that are determined to need emergent care are provided access within 2 hours from the date/time of request.

### Access, Triage and Referral. 1.2.2. Access to Urgent Care (Current Quarter Detailed Report)

<u>Performance Requirement</u>: LME maintains a log for each request for service and submits a quarterly report by the 20th day of the month following the end of each quarter. Reports shall be submitted on time and show the number of persons requesting services, the number and percent that are determined to need urgent care, and the number and percent for which a face-to-face service (assessment and/or treatment) is provided within 48 hours of the request.

Best Practice Standard:

100% of cases that are determined to need urgent care are provided a face-to-face service (assessment and/or treatment) within 48

hours from the date/time of request.

SFY 2005 Standard:

85% of cases that are determined to need urgent care are provided a face-to-face service (assessment and/or treatment) within 48 hours from the date/time of request.

- 1. Dates that are shaded and in bold font indicate reports that are not received by the due date. Late reports are not counted in determining whether either standard was met.
- Offered But Declined includes consumers that were offered an appointment within the target time frame but declined for personal convenience or necessity and requested a later appointment; or were scheduled for an appointment within the target time frame but called and rescheduled it to a later time.
- 3. Percents that are less than 85% are shaded and in bold font.
- 4. ★ = Met SFY 2005 Performance Contract Standard. ★★ = Met Best Practice Standard.

### Access, Triage and Referral. 1.2.2. Access to Urgent Care (Year-to-Date Summary Report)

<u>Performance Requirement</u>: LME maintains a log for each request for service and submits a quarterly report by the 20th day of the month following the end of each quarter. Reports shall be submitted on time and show the number of persons requesting services, the number and percent that are determined to need urgent care, and the number and percent for which a face-to-face service (assessment and/or treatment) is provided within 48 hours of the request.

Best Practice Standard: SFY 2005 Standard: 100% of cases that are determined to need urgent care are provided a face-to-face service (assessment and/or treatment) within 48 hours from the date/time of request. 85% of cases that are determined to need urgent care are provided a face-to-face service (assessment and/or treatment) within 48 hours from the date/time of request.

### Access, Triage and Referral. 1.2.3. Access to Routine Care (Current Quarter Detailed Report)

Performance Requirement: LME maintains a log for each request for service and submits a quarterly report by the 20th day of the month following the end of each quarter. Reports shall be submitted on time and show the number of persons requesting services, the number and percent that are determined to need routine care, and the number and percent for which a face-to-face service (assessment and/or treatment) is provided within 7 calendar days of the request.

Best Practice Standard:

100% of cases that are determined to need routine care are provided a face-to-face service (assessment and/or treatment) within 7 calendar days from the date/time of request.

SFY 2005 Standard:

85% of cases that are determined to need routine care are provided a face-to-face service (assessment and/or treatment) within 7 calendar days from the date/time of request.

- Dates that are shaded and in bold font indicate reports that are not received by the due date. Late reports are not counted in determining whether either standard was met.
   Offered But Declined includes consumers that were offered an appointment within the target time frame but declined for personal convenience or necessity and requested a later appointment; or were scheduled for an appointment within the target time frame but called and rescheduled it to a later time.
- 3. Percents that are less than 85% are shaded and in bold font.
- 4. ★ = Met SFY 2005 Performance Contract Standard. ★★ = Met Best Practice Standard.

### Access, Triage and Referral. 1.2.3. Access to Routine Care (Year-to-Date Summary Report)

<u>Performance Requirement</u>: LME maintains a log for each request for service and submits a quarterly report by the 20th day of the month following the end of each quarter. Reports shall be submitted on time and show the number of persons requesting services, the number and percent that are determined to need routine care, and the number and percent for which a face-to-face service (assessment and/or treatment) is provided within 7 calendar days of the request.

Best Practice Standard: SFY 2005 Standard:

100% of cases that are determined to need routine care are provided a face-to-face service (assessment and/or treatment) within 7 calendar days from the date/time of request.

85% of cases that are determined to need routine care are provided a face-to-face service (assessment and/or treatment) within 7 calendar days from the date/time of request.

### Access, Triage and Referral. 1.2.4. Access Line

3rd Quarter

Answered Within

4th Quarter

Answered Within

Performance Requirement: LME maintains a toll-free Access Line that is staffed 24 hours per day every day with trained personnel. Calls are answered within 6 rings. DHHS will monitor the number of rings it takes to answer the Access Line through a mystery shopper program. A minimum of 10 calls per quarter will be sampled.

2nd Quarter

**Answered Within** 

100% of calls are answered within 6 rings. Best Practice Standard: SFY 2005 Standard: 85% of calls are answered within 6 rings.

### Service Management. 1.3.5. Transition To Community Services (Community Capacity Plan - MH)

Performance Requirement: LMEs are required to develop and implement a Community Capacity Plan to facilitate the transition of consumers from State-Operated facilities to community-based services, within available resources allocated by DMH/DD/SAS and from those earned via Medicaid billings. DHHS shall approve these plans and monitor implementation to ensure that services and supports are developed and/or community capacity is expanded according to the parameters set forth in each approved plan.

Best Practice Standard:

100% of services and supports are developed or capacity is expanded according to the parameters in the approved plan.

80% of services and supports are developed or capacity is expanded according to the parameters in the approved plan.

### Service Management. 1.3.5. Transition To Community Services (Community Capacity Plan - DD)

<u>Performance Requirement</u>: LMEs are required to develop and implement a Community Capacity Plan to facilitate the transition of consumers from State-Operated facilities to community-based services, within available resources allocated by DMH/DD/SAS and from those earned via Medicaid billings. DHHS shall approve these plans and monitor implementation to ensure that services and supports are developed and/or community capacity is expanded according to the parameters set forth in each approved plan.

Best Practice Standard: Allocated resources are used as planned to expand capacity unless justified (beyond the LME's control). Same as Best Practice Standard.

### Service Management. 1.3.5. Transition To Community Services (Psychiatric Hospital Bed-Day Allocations) (Cumulative Year-To-Date)

Performance Requirement: In order to facilitate the transition of consumers from State-Operated facilities to community-based services and to prevent the overutilization of State-Operated facilities when it would be more appropriate to serve consumers in their communities, LMEs have been given the responsibility of authorizing inpatient and ADATC admissions and working with State-Operated facilities to return consumers to appropriate community-based services as soon as practical following admission. To facilitate this effort, LMEs are expected to keep their inpatient and ADATC utilization within annual bed-day allocations for various categories of beds.

The LME uses 90% or less of its annual bed-day allocation per category. Best Practice Standard: The LME uses 100% or less of its annual bed-day allocation per category. SFY 2005 Standard:

<sup>1.</sup> Percentages that exceed the annual SFY 2005 Performance Contract Standard are shaded and in bold print. YTD straight-line percentage for the current quarter is 100%. Percentages that exceed the YTD straight-line percentage are highlighted yellow.

<sup>2. ★ =</sup> Has met the annual SFY 2005 Performance Contract Standard. ★★ = Has met the annual Best Practice Standard. Standard Met is reported at the end of the year in the fourth quarter report.

### **Provider Relations And Support.** 1.4.1. Proximity

Performance Requirement: The LME ensures geographic access to supports and services for its consumers within approved proximity standards specified in its Local Business Plan. The LME shall submit an annual report with maps showing the location of providers and geographic coverage of its catchment area and shall provide information about the percentage of the population it is responsible for serving that is within the prescribed proximity standard for crisis, assessment, case management, outpatient therapy, and periodic CAP-MR/DD waiver services.

Best Practice Standard: SFY 2005 Standard:

95% of the general population is within the required proximity standard for each type of service provider listed below. 85% of the general population is within the required proximity standard for each type of service provider listed below.

### Provider Relations And Support. 1.4.2. SB 163 Provider Monitoring

<u>Performance Requirement</u>: The LME develops Provider Monitoring policies and procedures and monitors providers in its catchment area in accordance with SL 2002-164, 10A NCAC 27G .0600, and its written policies and procedures. The LME shall submit monthly Provider Monitoring Reports to DHHS summarizing its monitoring activities. These reports shall be reviewed to ensure that identified issues are being followed-up and resolved or referred to DHHS in a timely manner. DHHS shall annually review the LME's written policies and procedures (P&Ps) to ensure that all required elements are addressed and shall review the LME's implementation of its P&Ps.

Best Practice Standard: SFY 2005 Standard: Policies and procedures are developed, contain all required elements, and are implemented. **100%** of providers monitored address and resolve issues in a timely manner or are referred to DHHS per NCAC 27G .0608(a)(2). Policies and procedures are developed, contain all required elements, and are implemented. **85%** of providers monitored address and resolve issues in a timely manner or are referred to DHHS per NCAC 27G .0608(a)(2).

<sup>1. &</sup>quot;Addressed" means that as of the date of the monthly monitoring report (4 months following the monitoring visit), either the issues have been resolved, or improvement plans have been implemented and the LME is working with the provider to ensure that improvements are sustained.

### Quality Management and Outcomes Evaluation. 1.6.1. Quality Improvement Process

<u>Performance Requirement</u>: The LME shall submit an annual Quality Improvement report that describes how it has used its QI process to address service service delivery system issues in at least one of the following areas: (a) building service capacity, (b) ensuring continuity of care during divestiture of services, and/or (c) ensuring the use of evidence-based practices. The report provides information about the QI projects that have been undertaken and addresses the following elements for each project: (1) the basis for choosing the issues targeted for improvement (e.g. data analyzed), (2) strategies developed to address identified issues, (3) actions taken, (4) an evaluation of results to date, and (5) recommendations for next steps.

<u>Best Practice Standard</u>: At least 5 QI projects were undertaken. All 5 elements were addressed for each project. <u>SFY 2005 Standard</u>: At least 3 QI projects were undertaken. 3 elements were addressed for each project.

### Quality Management and Outcomes Evaluation. 1.6.3. Incident Reporting

<u>Performance Requirement</u>: The LME analyzes Level II and Level III incidents reported by providers, in accordance with 10A NCAC 27G .0600, to determine trends and take action to make system improvements. The LME shall submit quarterly reports [by the 20th of the month following the end of the quarter] summarizing Level II and Level III incidents reported by providers. The report will include summaries of (1) data analyses to identify patterns and trends, (2) strategies developed to address problems, (3) actions taken, (4) the evaluation of results, and (5) recommendations for next steps. DHHS will review the reports for evidence of an effective incident review process.

Best Practice Standard: SFY 2005 Standard:

100% of reports are submitted on time and show clear evidence of an effective process containing elements (1)-(5). 75% of reports identify trends, contain plans, actions and results [elements (1)-(4)] for how the LME is addressing those trends to make improvement in services.

### Information Management, Analysis, and Reporting. 1.8.1.5. System Monitoring - Substance Abuse/Juvenile Justice Initiative Reports

Performance Requirement: LME submits all quarterly Substance Abuse/Juvenile Justice Initiative Reports by the 20th of the month following the end of the quarter. Reports are accurate and complete.

Best Practice Standard:

100% of reports are accurate, complete, and received by the due date.

SFY 2005 Standard: 100% of reports are accurate, complete. 75% of reports are received on time, and 100% are received no later than 10 calendar days after the due date.

## Information Management, Analysis, and Reporting. 1.8.2.6. Consumer Information - Early Intervention Client Outcomes Inventory (EI-COI) Initial Assessments

<u>Performance Requirement</u>: The LME, through providers, will collect outcomes information on its consumers following sampling methods and reporting schedules for the instrument being used. The instrument used will depend on the type of consumer. The EI COI is required for consumers up through age five whose case number ends in 3 or 6 (20% sample). The expected number of initial forms is the number of active consumers in the CDW in this age group with case numbers ending in 3 or 6.

Best Practice Standard: 100% of the expected initial COI assessments are submitted within the timeframes specified in the COI manual. 90% of the expected initial COI assessments are submitted within the timeframes specified in the COI manual.

## Information Management, Analysis, and Reporting. 1.8.2.7. Consumer Information - DD Client Outcomes Inventory (DD-COI) Initial Assessments

<u>Performance Requirement</u>: The LME, through providers, will collect outcomes information on its consumers following sampling methods and reporting schedules for the instrument being used. The instrument used will depend on the type of consumer. The DD COI is required for consumers ages 6 and over with a primary disability of DD whose case number ends in 3 or 6 (20% sample). The expected number of initial forms is the number of active consumers in the CDW in this age and disability group with case numbers ending in 3 or 6.

<u>Best Practice Standard</u>: 100% of the expected initial COI assessments are submitted within the timeframes specified in the COI manual. <u>SFY 2005 Standard</u>: 90% of the expected initial COI assessments are submitted within the timeframes specified in the COI manual.

## Information Management, Analysis, and Reporting. 1.8.2.8. Consumer Information - MH/SA Client Outcomes Inventory (MH/SA-COI) Initial Assessments

<u>Performance Requirement</u>: The LME, through providers, will collect outcomes information on its consumers following sampling methods and reporting schedules for the instrument being used. The instrument used will depend on the type of consumer. The MH/SA COI is required for all consumers with a primary disability of mental health and/or substance abuse whose case number ends in 3 or 6 (20% sample) until transition to the expanded, web-based NC TOPPS system has been completed. Transition is expected to be completed by the end of the fiscal year. The expected number of initial forms is the number of active consumers in the CDW with case numbers ending in 3 or 6 minus the number of consumers who are administered the NC-TOPPS outcomes instrument.

Best Practice Standard: 100% of the expected initial COI assessments are submitted within the timeframes specified in the COI manual. SFY 2005 Standard: 90% of the expected initial COI assessments are submitted within the timeframes specified in the COI manual.

## Information Management, Analysis, and Reporting. 1.8.2.9. Consumer Information - NC Treatment Outcomes and Program Performance System (NC-TOPPS) Initial Assessments

<u>Performance Requirement</u>: The LME, through providers, will collect outcomes information on its consumers following sampling methods and reporting schedules for the instrument being used. The instrument used will depend on the type of consumer. The NC-TOPPS is required for all consumers in specified substance abuse populations and shall be submitted within the timeframes specified in the NC-TOPPS Manual. The expected number of initial forms is the number of active consumers in IPRS in the relevant target populations. Initial forms are due by the last day of the month following the month the initial form is administered. For example, if the initial form is administered in October, the form is required to be submitted by November 30. All initial forms shall be complete and accurate.

Best Practice Standard: SFY 2005 Standard:

100% of the expected initial forms are received on time and are complete.

90% of the expected initial forms are received on time and 90% of the items are complete.

### Information Management, Analysis, and Reporting. 1.8.2.12. Consumer Information - Olmstead Outcome Monitoring

<u>Performance Requirement</u>: The LME, through providers, will collect and submit to DMH/DD/SAS via the web outcomes data on all consumers transitioning from State facilities, monthly for 6 months, then quarterly for 9 months (e.g. months #9, #12, and #15), the annually thereafter starting at month #24.

Best Practice Standard: 100% of forms are completed as required and received by the required date.

SFY 2005 Standard: 100% of forms are completed as required and received within 30 days after the required date.

### Information Management, Analysis, and Reporting. 1.8.2.13. Consumer Information - NC Support Needs Assessment Profile (NC-SNAP)

<u>Performance Requirement</u>: The LME, through providers, will submit to DMH/DD/SAS, by the 15th of each month, a file containing current assessment forms for all consumers receiving DD services.

<u>Best Practice Standard</u>: 100% of current assessments are no more than 15 months old. <u>SFY 2005 Standard</u>: 95% of current assessments are no more than 15 months old.
